Our Ref. ckb1869

Dear Tracy

### **CERTIFICATION OF ENVIRONMENTAL PROFILES**

Further to our recent correspondence, I am pleased to confirm that your Altro Maxis Suprema 2mm PVC flooring product with 3.2mm Hardboard sheathing has achieved a score of 1.2 Ecopoints for 1m<sup>2</sup> installed over a sixty year period.

When this Ecopoint score is compared to the Green Guide to Specification the product achieves an 'A' rating within a hard floor covering building element.

I will issue a certificate and include the product in our Red Book listing when we return from the Christmas break. I will also send you details of how you can use the BRE Certification mark and the certificate number and wording that should accompany its use.

Please note that the Green Guides and the Environmental Profiles methodology are in the process of changing and all existing certificated products will be recalculated in March 2007 using the new data. This could result in changes to both the Ecopoint score and Green Guide rating.

Should you require any further information, please do not hesitate to contact me.

Yours sincerely

Chris Beedel
